“Doctors need to remember the goal is to treat the patient and not the disease”

Dr. Radin

Doctors are taught that to effectively treat a disease you have to know the patient as well. As a physician, I understand that my patients value thoughtfulness so that I can act as their best healthcare

advisor. The business of medicine no longer encourages doctors to take the time to consider our patients unique situations. In spending more time with my patients, I will be able to develop insight into their medical histories and everyday lifestyle routines allowing me to be more proactive with preventive care and wellness.

I am honored to be included as one of

Castle Connolly's "Top Doctors®". For more than 25 years Castle Connolly Medical has been the leading source providing information to consumers to help identify the top doctors in their own communities.

A more convenient, connected, and collaborative approach to care.

In partnering with Castle Connolly Private Health Partners, LLC, I will be offering my patients a more robust, convenient, and connected wellness experience. Delivering the highest level of care requires listening, skill, and, above all, adequate time. Today, the typical primary care visit is only 11 minutes. This program, Radin CCPHP, LLC, will provide my patients with a wide variety

of amenities to enhance their overall care experience, including direct connectivity to me, extended office visits, and a complimentary personal health coach

By participating in this membership-based primary care opportunity, you will receive enhanced supervision of specialty consultations and follow-ups, and coordination of your care. A recent study reports that individuals receiving the benefits of enhanced communication experienced as much as a 50 percent reduction in hospitalizations as well as overall reductions in their healthcare costs.

This program allows me to continue putting you, my patient, first. You can learn more about the program as well as all of the benefits of Membership in this brochure by calling **(203) 439-0494** or visiting radinccphp.com.
