A more convenient, connected, and collaborative approach to care.

24/7 Connectivity · Preventive Focus · Personalized Approach to Care

## *Join us in a new model of care*

Since founding my practice in 2009, I have been taking care of my patients with the belief that a good doctor-patient relationship, through increased connectivity, greatly promotes prevention and treatment of illness. In addition, I strongly believe that an enhanced relationship between a doctor and a patient results in increased trust and confidence in a treatment plan, further promoting positive health outcomes.

Unfortunately, in today's increasingly complex healthcare environment, continuing to practice medicine and serve patients in the way that I wish to has become unsustainable. As a result, I have chosen to collaborate with Castle Connolly Private Health Partners, LLC (CCPHP) to create a new membership-based (concierge) practice, Bos CCPHP, LLC. Through this new membership program, I will be able to continue to provide members with extended office

visits, 24/7 connectivity to me, same- or next-day appointments, as well as an array of additional offerings such as health coaching, and other amenities and enhancements. This will enable me to spend more time with my patients to discuss their health concerns in greater depth and better coordinate their care, while continuing to act as their personal health advocate.

You can learn more about all of the membership benefits in this brochure or by calling (917) 634-2162.
