Dr. Suh

As a physician, my greatest satisfaction is derived from working closely and comprehensively with my patients in an unhurried environment so that I can be my patients' advocate and advisor regarding longevity and quality of life.

In order to alleviate some of the barriers in today's healthcare environment that interfere with my ability to continue to practice this way, I have collaborated with Castle Connolly Private Health Partners, LLC

(CCPHP), to create a new concierge program called Suh CCPHP, LLC.

A more convenient, connected, and collaborative approach to care.

The program provides my patients with a wide variety of membership amenities to enhance their care experience, such as access to the innovative SENS Solution® Wellness Program, which includes a personal health coach who collaborates with me to optimize their wellbeing.

The patient-physician relationship is what I value the most as your family doctor. With this model, I will be able to provide a connected, convenient, collaborative care approach on a more ongoing and consistent basis. Ultimately, this program allows me to continue putting you, my patient, first.

You can learn more about the program as well as all of the benefits of Membership in this brochure and by calling **(425) 658-0247**.

Erik H. Suh, MD

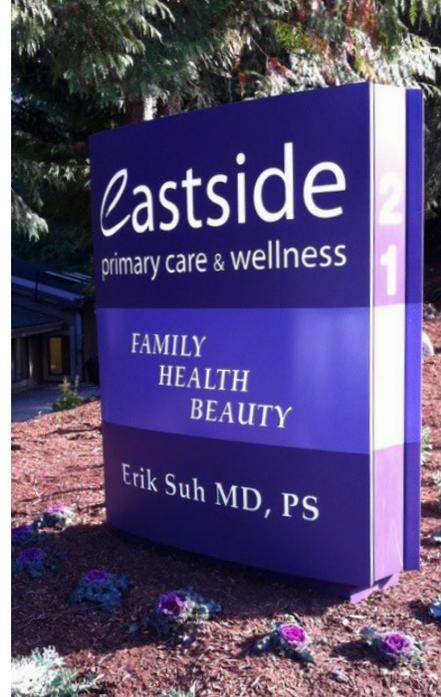

Family Medicine

Born in Seoul, Korea, in 1969, Dr. Erik Suh immigrated to the United States when he was 8 years old and started the journey of becoming a doctor. He attended Baylor University for his bachelors degree in biology and went on to the University of Texas School of Medicine for his MD degree. Dr. Suh chose to go into family medicine; he completed his residency at John Peter Smith Hospital Family Medicine Residency Program and became a board-certified family physician.

For the past 19 years, his practice has evolved into more integrated medicine with special interest in men's and women's health, wellness, and anti-aging, along with cosmetic dermatology and aesthetic medicine. Dr. Suh admits the evolution of his practice has coincided with working through his own physical challenges of the aging process and finding himself becoming more interested in staying healthy and youthful in mind, body, and spirit.

In his spare time, Dr. Suh volunteers as an assistant professor for Pacific Northwest University College of Osteopathic Medicine and as a clinical instructor for the University of Washington School of Medicine. He is also a preceptor for Bastyr University Naturopathic Medicine Program.

Overall, Dr. Suh is thankful to be working in such a dynamic clinic surrounded by wonderful colleagues and employees, building a legacy of patient-centered medical home. He wishes all of his patients to lead long, strong, and healthy lives.
